Dear Sir:

Please enter all amendments made under Article 34 in the International Application which are appended hereto prior to examination in the application, and further amend the application as follows.

In The Claims:

Please rewrite claims 1-14 as follows:

1. A linear inductive transducer comprising:
electric windings including
a first primary winding, and
a pair of secondary windings,
a magnetic core, for performing linear displacements relative to the electric windings,
a pair of input terminals electrically connected to said first primary winding and adapted for being electrically connected to a power supply unit,
